...HIGHER INTEREST

Higher interest rates are nothing new to us.

Memotech videowalls attract higher interest from audiences wherever they're installed.

And with over 250 systems worldwide, we know it's quality that makes the big impact.

Unrivalled definition. Effortless programming. Ease of installation and maintenance. Reliability and versatility second to none.

That's the kind of quality that sets Memotech videowalls apart. That and our unbeatable hands-on experience in every aspect of videowall technology.

Yet in a world of rising costs, Memotech systems have actually fallen in price.

So why not telephone Colin Mitchell on (0993) 778691 or write to him at Station Lane, Witney, Oxon OX8 6BA and find out how Memotech 1500 and 2000 videowalls can make a big impact for you.
